Summary

- Motivated and driven student pursuing Computer Science, consistently diving into new technologies related to **Web Development** and fervently solving programming challenges.My hunger for learning fuels my commitment to elegant problem solving.
- Proficient in creating **responsive** and visually appealing user interfaces using modern web technologies such as **HTML**, **Tailwind CSS**, **JavaScript**, **React and Next.js** with a keen focus on detailed and user experience.
- A native experience in **Rest APIs** in **Node.js** and **Next.js** for interaction with databases like **MongoDB**
- A great knowledge about **Git,GitHub** and **Figma designs**.
- Proficient in **communication** with 2+ years of experience conducting initial and technical interviews with US clients.

Skills

- JavaScript
- HTML5 & CSS (Bootstrap, Tailwind)
- Node.js(Express)
- MongoDB
- PostgresSQL
- RESTful APIs
- Agile and Scrum Methodology
- Git, GitHub and Figma
- React.js
- Redux
- Next.js
- Fine Tuning AI Modals (i.e Anthropic Modal)

ACADEMIC

- C++
- OOP
- DSA
- Database S QL
- C#

Experience

Frontend Internship **Aug 2024 to Dec 2024**

Pakistan Bureau Of Statistics(PBS) – company

During my tenure as a Full Stack Developer at SoftServe, I've led development teams across diverseprojects, assuming various roles and collaborating seamlessly with interconnected teams.

- I've shouldered diverse responsibilities during my time at **PBS**.
- I've innovated by introducing new features, functionalities, and capabilities to websites, utilizing HTML/CSS , Tailwind CSS, JavaScript in depth. I've also leveraged frameworks and JS libraries like React/Next.js/Redux.

Web Developer **Aug 2023 to Current**

ALGO 3 – company

Commenced my journey at ALGO 3 as a Frontend developer ,besides worked on node.js(for making Rest APIs) and mongoDB and also developed backend in Node.js along with complex frontend designs contributing to the creation of diverse client applications.

- Developed a full Onboarding and Offboarding Management System using React.js, Node.js, and PostgreSQL, automating Slack workspace management, Jibble assignments, and talent allocation to specific job roles.
- Worked on a project in which I had to handle authentication and store and retrieve users data depending on the type of authorization (Google or Manual using input form), for that I used Node.js for building Rest APIs and MongoDB for storing users auth data (including encrypted password, auth token and much more)
- Worked on more than one projects related to fine-tuning the AI Modals for developing Production Ready code.

Education

MATRIC

Usama Bin Tariq Shaheed School Islamabad 2018-2020

2018 - 2020

Intermediate

IMCB G-10/4 College Islamabad

2020 – 2022

BSCS

ARID UIIT(University of Information Technology Rawalpindi)

2022 - 2026
